Hey Rosh

Thank u, thank u…gosh you have one hectic schedule and found the time to respond at night, very grateful.
Would love to have you present on your e-learning work, I was there last year and loved it. And perhaps you have new ideas this year….btw I saw you added me as a student on Pioneers +, let me know what you want me to do.
The Symposium is on 13th and 14th, it was moved due to availability of guest. So hope that you are still ok for presentation on 13th.

Wish you lots and lots of luck with the HELTASA award, I know you're an excellent candidate.

Don't worry too much about the Symposium presentation just yet. You have it ready from last year. Concentrate on getting your portfolio ready.

Take care J

Love,
Nalini

Hi Nalini

I am fine thanks (besides being ridiculously busy)

We are going through an internal program review. and its scheduled for 5 and 6 June. I will confirm with Nalene, if I can be spared the next day.....will get back to you asap. I sure there wont be a problem.

I have been nominated for HELTASA and have only just accepted.....so feeling very overwhelmed right now. Portfolio is in my head. have lots of evidence....now just need to put it together.....its due next week. My students always come first - undergrad, BTech and post grad.....so feeling very snowed in....but I'm a SURVIVOR!!!!

As you know I presented at the elearning festival last year, if you are happy for me to share those experiences again.....I think we can give it a shot. we can do a show and tell of the actual classroom or I can just highlight main benefits.

Warm & kind regards
ROSH

Hi Rosh

Hope you're doing well. You may have already seen the notifications for the LTA Symposium. The theme is innovative student centred LTA. I am writing to ask if you would like to present something on your classroom practice, could be on e-learning.

Look forward to hearing from you.

Take care,
Nalini
